Who We Admire?

Mr. Rippey

Who would've thought the grumpiest of teachers who all he talks about is himself, change, and politics, would be the same admirable teacher who has greatly impacted us all. His words, from his experiences, have left us inspired – that it is possible to make a difference. Some would call his ways rebellious or a bit radical, just a bit. But it is not the reason why we, the senior class, dedicate the yearbook to him. We dedicate this to him for being a part of our growth as individuals, sharing his knowledge with us and teaching us about the world in the past, today, and for the future. From him, we have learned far beyond than we ever expected to. We thank you for inspiring us, the future generation, to challenge, learn, explore, and live.

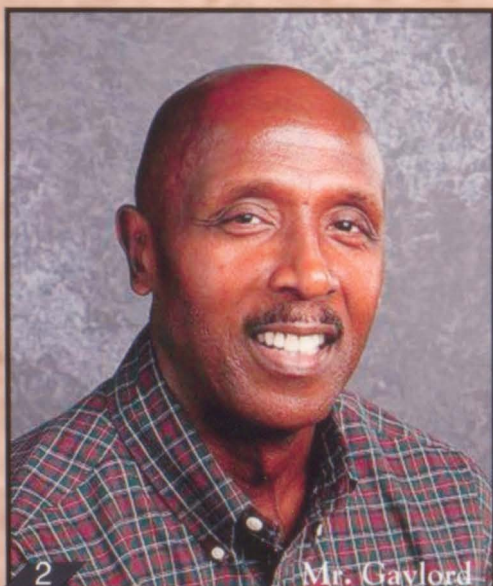

Mr. Mohren

His humor has taken away all of the intimidation we have of history class. His laid back personality has allowed many students to approach him and just have random conversations with him about anything. His dedication to his students and what he believes in, has gifted him with a great deal of respect, not only from the student body but also from his colleagues. To a funny, charismatic, patient and understanding individual; to the man who picked up the mess we used to be as a class and brought it together in less than two years. This yearbook is also being dedicated to Mr. Justin Mohren; without you the senior class wouldn't have achieved what we did in these few years. Thank you for contributing to our very memorable high school experience.

Retirements & Leavings

In today's society, we tend to overlook those that are always there because we fail to recognize the effort that must be put forth in order to never be absent. Judging without knowing or making implications without reason, we limit our minds to the restrictions that impede a higher level of thinking. It was a pleasure and an honor to have as part of the SPHS staff a man of great dedication and insight. His strict character and high morale served not only as motivation, but also as a precious example to all. Mr. Gaylord taught Freshman English, worked in the district for 38 years, 29 of which were spent at our very own SPHS, and coached the boys' basketball team for 28 years.

With much gratitude, we wish you the best in whatever the future holds for you. Thank you for being the man you are and for everything you gave to SPHS and all its students.

Mr. Gaylord

Ayooooo. Ightttt. He was one of the best teachers in SPHS and above that, a fantastic person. He always had a smile on his face and his eyes were always cheerful. SPHS will be different without him here. His time came too early but he leaves behind all those that were impacted by his uplifting personality. The SPHS family will never forget Mr. Garcia.

-Ming Weng

Ray and I always had "the party" in our office with old Salsa and Reggaeton music. Students would pass by to make fun of our mad fast Puerto Rican accent. Ray always took good care of me as a new teacher, gave me good advice, treated me as family... And always complained of his bunions... Always lives in my heart!

-Mr. Rivera

Mr. Garcia, wherever you are, I hope you read this and know that you didn't waste your words because they have really changed my life.

-Jonathan Ortiz

Thank you because you taught us all some valuable lessons and even though you are not physically here, you continue to inspire us. Have fun up there for all of us <3

-Jesenia Reyes

There are no words to express what you meant to your students. A man so full of life and with so many plans all of a sudden leaves this Earth. That is how we know that life can really change in a second. All I can say is "thank you". Thank you for all the life lessons and all the advice, and above all, thanks for all the smiles you brought to our faces. You are and will continue to be missed. God bless you.

-Pamela B. Gómez

I broadcasted Mr. Garcia's no-hitter when he was in the little league. When I saw him years later as a teacher, he displayed the same love and dedication to teaching as he did as a young ball player.

-Mr. John Farrell

Rey was an ORGAN DONOR and helped 85 people... May the Lord bless his soul...

- Mr. Swartz

His death was really surprising. He was young and I really didn't want him to go.

I'm going to miss seeing him walking around the school with sheets of paper in his hands and his Jordans matching his outfits.

-Jennifer Cedeño

I loved him for being the outstanding man he was. R.I.P. Mr. G (you really were a G!) We love you and always will.

ILY!

ROTFL! :D

LOL!

LMAO!

SMH...

IDK?

Remember When...

A group of us playfully threw Saade in a garbage can!

The 2010 NPS walkout!

Evans sexywalked at Families that Cook!

Mr. Kenz AND Ms. Flores would throw markers at us so we would pay attention in class!

When everyone used to "pant" each other freshman year!

The **JUNIORS** vs. **Seniors** war that took place the day of Pep Rally!

THE MYSTERIOUS HALLWAY/STAIRWELL SMELL!

There were statues in the hallways and everyone always confused them for people!

Ms. Groscheler's tooth fell on Jonathan!

The 2010 six-day snow blizzard!

The cake, cookies, and Slushies that the cafeteria sold freshman year!

Mr. Truppo had a one man protest!

Everyone looked forward to the Ironbound Teen Nights!

People used to wear and trade Silly Bands!

Darius Thurman told Mrs. Bennett that her hair looked hideous!

Mr. Rake would call us (the 7th grade class) knuckleheads and told us we had too much muscle!

WE TOOK CLASS SERIOUSLY!

Mr. Mohren and Mrs. Pabon said they were canceling Prom!

Paulo Seabra left to England for a month... then came back!

Posters were put up in the hallways for FLUFFY the missing cat!

Alberto used to be small!

Someone stole Titishana's undergarments from the locker room!

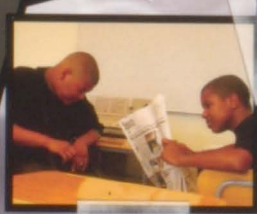

Catherine said "Je m'appelle pizza" during her French skit!

ALSTON'S VOCAB CARDS TOOK OVER OUR LIVES!

FRESHMAN YEAR

When we began high school we had no idea where our classes were. We would never get our lockers open on the first try. We had to tolerate lunch with no playground and having a different teacher every period! When we were all 5 feet tall and intimidated by those tall grown seniors. But regardless of our insecurities, it's undeniable that the tightest of bonds and the most memorable memories were created during our freshman year...

When things were black and white, we colored our world.

Sophomore Year

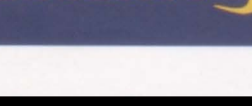

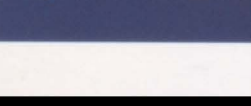

Then came our second year at Science Park. Cliques formed, relationships arose, and everyone began to find their place of comfort in our rather large hi-tech building in the city. Athletes were always in Miss Monica's office, artists were always hanging out in Mrs. Dicket's, and debaters never left Alston's class. With class officers finally elected and the migration to the second floor hallway complete, we finally felt the sense of belonging and involvement in the Science Park community...

"In the end, it's not the years in your life that count. It's the life in your years."

We have finally made it! In the first half of the school year we had to work super hard with college applications and keeping up grades to graduate. But it's paid off. All of our efforts on pointless history Power Point presentations, and all nighters to finish projects that were saved for the last minute, paid off (or didn't). Either way **SENIORITIS** hit everyone to a certain degree whether we liked it or not. These four years breezed through, the memories were unforgettable and prom was killer! The senior year experience was definitely the best way to enjoy and endure our last year in high school. **WE DID IT!**

A few weeks after accepting a position at Science Park, Mr. Thomas mentioned that a junior class advisor was needed. Feeling grateful for the position, I "volunteered" for the job. I remember him saying "Don't worry, these students are wonderful and will do all of the work. The parents will offer help whenever you need it." From our first meetings, when hearing about Steven's Guitar Hero accomplishments, to listening to DeQuan's rants about which Star Wars episode is the greatest, each student distinguished themselves by their uniqueness and special talent.

Advisor's Message

Everyone offered ideas that would bring the class together, from Families that Cook to throwing a Jr. Prom and a Back to School Dance. Our only shortcoming was having a DJ show up on time!

During those events, no matter how stressful they were, watching everyone have a good time brought a smile to my face. You all definitely lived up to your reputations by doing whatever was necessary to ensure a successful event!

Now that you all have moved past the stressful period of college applications and choose the next step in life, all that I can ask is that you take the passion and dedication that you demonstrated in shaping your high school experience at Science with you. All of your teachers have prepared you not to be average citizens, but to make a difference wherever your path leads you! Make us proud and when you encounter a bumpy patch in the road, I hope you can sit back and reflect on an event that will bring a smile to your face! Good luck and stay focused! Nothing can prevent you from achieving whatever it is you decide to conquer!

FAMILIES THAT COOK

Who would've thought the small idea from a parent became the very successful event that boosted our fundraising efforts. Families That Cook was the obvious event that was needed for our class. Who could say no to an event that would have food and music? We, seniors, contributed all foods thus showing the clash of cultures we are. With its two year run, Families That Cook is remembered for its delicious cuisine, amazing music, and for the memorable, hilarious, and fun moments.

Food + Music + Friends = Amazing Time!!!

September 7, 2011: 170 seniors from Science Park High School went through the first day of what would be the end of their high school career, when they were all infected with a very contagious virus that spread rapidly and angered all of the SPHS staff, known as SENIORITIS!!!!

"Sorry I don't have one yet"

-Evans Berrocal

HAVE YOU BEEN INFECTED?

When you constantly tell yourself "YOLO" every period.

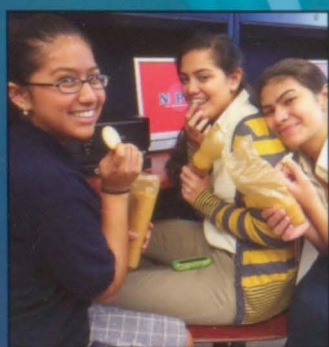

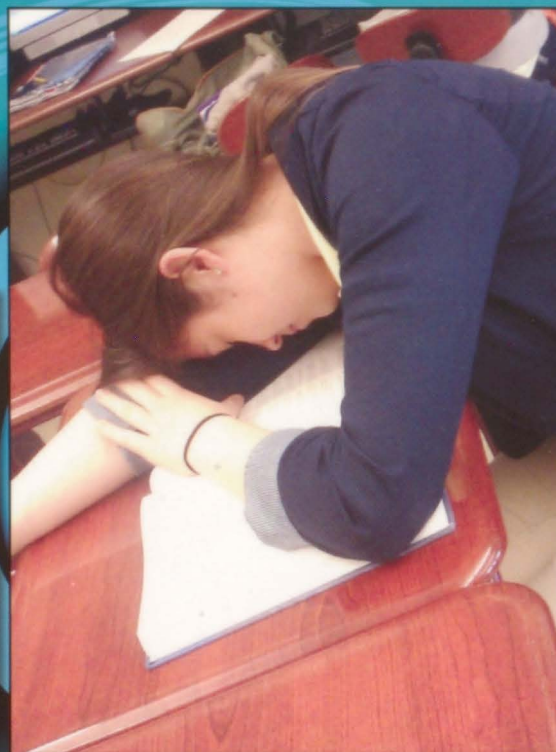

"When you get to a point where you realize your future is set up and in place and you feel like there is no point in going to high school anymore so you then decide to give up"

"When you become frustrated 1st and 2nd cycle and the midterm, then you don't care the rest of the year."

-Sergio Salas

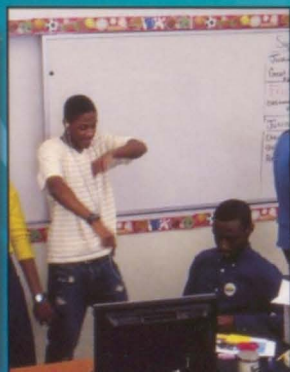

"A point where you come to the realization that what you're doing in school is making no sense nor helping you at all so you just lay back, relax, and act as if school is vacation."

-Bea Braga

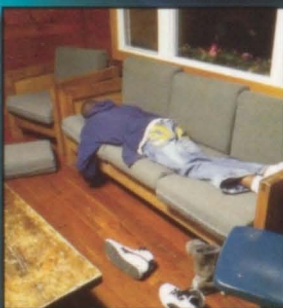

"Forgetting about school work"

-Gysel Espinoza

"What you see when you walk into a senior class nowadays."

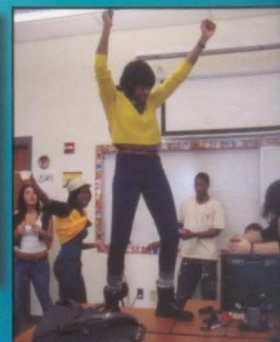

"Not going to your first and second period class anymore, just making it on time for Homeroom."

-Diane Lopez

"When you spend every period doing the next class' assignment because you saved it for last minute."

-Kiarah Leite

Senioritis: What we've all had since freshman year..

-Norberto Romero

JUST WHAT EXACTLY IS SENIORITIS ?????

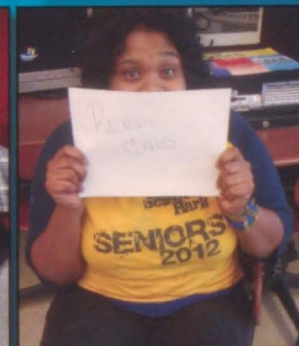

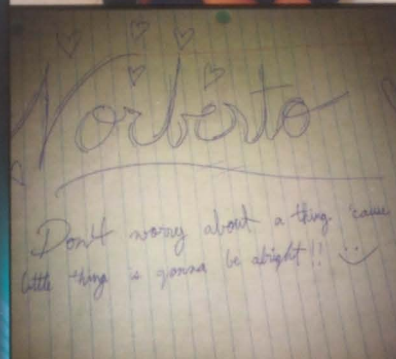

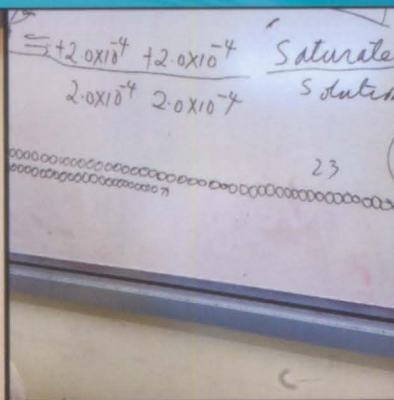

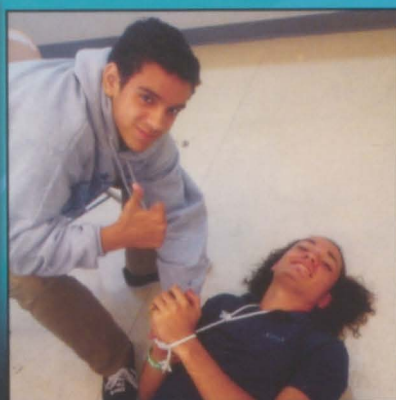

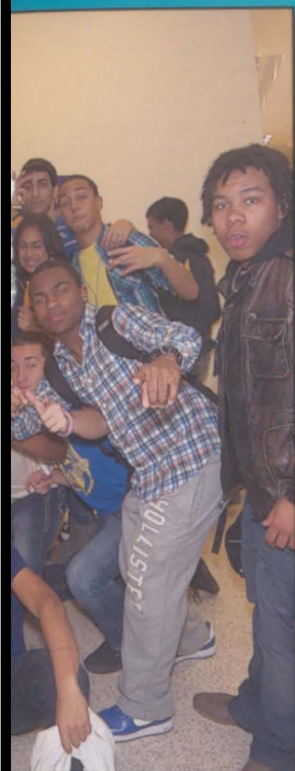

"The inflammation of the procrastination and apathy glands that occurs usually during the senior year of high school.

Symptoms may appear as early as Junior year, with some rare cases existing all throughout adolescence."

-Steven Barroqueiro

Definition: Noun. A crippling disease that strikes high school seniors. Symptoms include: laziness, an over-excessive wearing of track pants, no uniform, sweatpants, sweatshirts, and shorts.

Also features a lack of studying, repeated absences, and a generally dismissive attitude. The only cure is a phenomenon known as GRADUATION!

"When everything the teacher says goes through one ear and out the other!

-Erica Cabrera

"When school supplies becomes toys"

"Just chilling the rest of the year and not caring much about work because by the end of 3rd cycle we know whether we are graduating or not so no more effort is needed"

-Jennifer Cedeño

"Writing on yourself or a friend when you have nothing better to do."

"My third cycle report card."

-Jabari Lee

Esther's getting a 2-year full ride!
Oh happy birthday Esther!

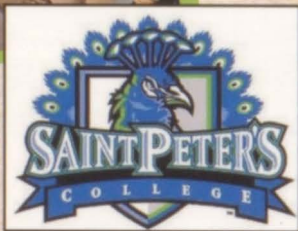

These debaters
are going to
change the world!

Very few of us actually thought we'd have a chance to receive a scholarship so once acceptances came, to our surprise, so did awards! Reality was, we're actually good enough. We forgot to think of the bigger picture, that not only were we competing within the city but the state and country. Being recognized for our merits or service or athletics told us that we are scholars and have the abilities to pursue our future goals.

Where my St. Peter's

they're going to grow to
become more amazing :)

In Memory Of...

How unfairly unique it is to start a new school year with so many goals and aspirations, only to have a beautiful, yet fleeting thing called life remind us how precious each of us truly are.

How can we, in one single school year, have three radiant lives taken from us way before their time? How do we process and make sense of these losses? How do we fight back the tears and tame our emotions?

The answers to these questions will reveal themselves differently for us all. Our individual faiths will eventually calm our emotions and allow us to make peace with the things we are powerless to control.

Forever in our.....

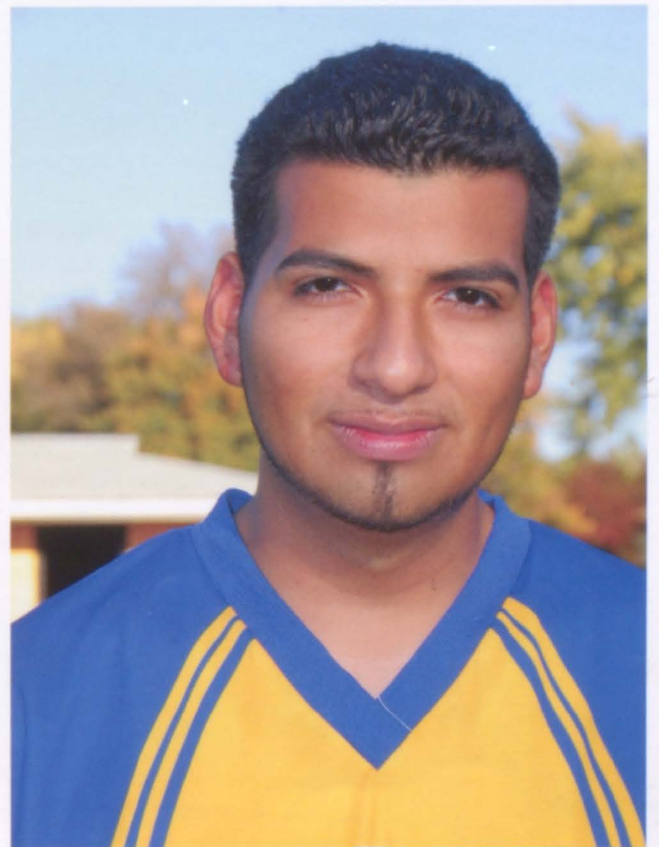

To Our Fallen Chargers:

You will be dearly missed
warmly remembered
reverently honored
and surely, never forgotten

Dear Laz (Cool Blue ID),
You were so awesome,
nicest guys I know,
you, and
Sense

Be remembered. Always
in our hearts.

I will never forget
class that we would spend fighting with
each other (or more like me trying to beat you and
you just hating me back) It is really sad that
I won't be seeing daily pictures of you'll grow
up, and even though I never said it to you in person
I liked you secretly I thought you knew already
looks like heaven has a new angel has a
rest to Mr. Garcia. Take care of each other out
there. C3
Love you guys (cheese)

Truth

Science Park High School is an academic institution dedicated to the search for truth. The highest goal of academic work must be to learn for its own sake. Although we are often graded, excelling goes beyond the grade. Acquiring knowledge and furthering truth is its own end.

Peace

Violence is not a way to solve problems within our community. All Science Park High School students must value each other.

Honor

Students are to always be respectful of each other's space and persons. No student should ever be harassed physically, verbally, emotionally, or sexually. Additionally the abuse of prescription or illegal drugs is beneath the character of Science Park High School student. Science Park High School must be drug free.

Community

Although we are a highly competitive school, we are also a compassionate family. We are a large, multi-racial, multi-cultural institution. We value all of our members. At all times, our community will be inclusive and welcoming to students of all races, religions, genders, economic classes, and sexual orientations. We are all valuable parts of one community.
